OUR SERVICES

Tree removal

Trees enrich our lives in so many ways, but it is essential to contact a professional when they threaten to destroy our homes, businesses, or property. So are you looking for a reliable tree service or tree removal company in Atlanta? Look no further because our expertise includes tree care, tree pruning, and tree removal services. We can gently remove any size tree while causing the least harm to the nearby trees and landscaping. Now is the time to schedule tree service! Call us To book a tree removal, cutting, or tree maintenance service in Metro Atlanta and nearby areas.

Stump removal

Garnetta Tree Service has the expertise, knowledge, and equipment to remove or grind stumps from trees of any size. You've tried all other options. It's now time to call in a pro. Stump grinding is, without a doubt, the quickest way to remove a stump! If you don't want to have these stumps, we may provide cost-effective removal options. Garnetta Tree Service is glad to assist you if you simply want to grind the stump or totally remove it. In Atlanta, we offer prompt and dependable stump grinding and stump removal services.

■ Pruning

As trees become older, they direct more of their development toward natural light sources. However, organic growth can often add undue weight and stress to a tree's base or root system. Stress causes a tree more susceptible to disease or storm damage if it is not appropriately trimmed or pruned. Trimming can also help some softer wood species to live longer.

Our pruning services include the following:

- Thinning
- Cleaning
- Removing deadwood

■ Emergency tree removal

Storms are the leading cause of tree-related accidents. As a storm-prone area, Atlanta is vulnerable to severe winds that can pull branches and even pull trees from their roots. It is always advisable to be proactive rather than reactive; do not wait until the damage has been done. Call Garnette tree service professionals to inspect trees on your property alongside looking for trees with damaged or split branches, drooping or cracked trees, and sick or fungus-infected trunks and roots.

When you want emergency tree removal, you should choose a service provider that has years of experience, qualified arborists, cutting-edge equipment, and 24-hour service. Garnette tree service is proud to provide emergency tree removal in Metro Atlanta and anywhere in Georgia.

■ Risk assessment

If you suspect that trees on your property pose a risk to your building, possessions, or family, contact Garnetta Tree Company as fast as possible. We ensure to do a thorough risk assessment to assess whether the trees near your property pose any hazard to you or anybody else. When it comes to something as significant as tree damage, look no further and Reach us.

We have extensive years of experience in the tree care industry and are dedicated to serving residents of metro Atlanta with the expertise they can rely on. Please contact us immediately for a free estimate or to learn further about our risk assessment procedures!

■ Tree preservation services

Tree preservation maintains property value, aesthetic charm and provides other benefits for the environment. At Garnetta tree company, We assist our customers in analyzing the advantages of conserving their trees. Our team will explore pruning, stand thinning, fertilizing, and pest management alternatives for optimizing your landscape. We also provide delicate care for older trees, including the appropriate amount of trimming and root treatment to keep your older trees growing in harsh environments. We are frequently relied upon to evaluate the condition of an old tree and recommend the best approach to preserve and enhance its well-being. To revive or preserve an older tree, we utilize a combination of trimming, root zone therapy, and soil enhancement via Eco-Mulching.

OUR WORK

Feedback is not easy to take but it makes success a piece of cake

We've opted to publicize our accomplishments on third-party customer review sites. We don't handpick only the top reviews as references for our company. We share negative evaluations as well if our consumers aren't totally satisfied with the results. These testimonials are the lifeline of our company, and we take immense pleasure in ensuring that all of our customers are completely satisfied with the services we provide. We believe that once we have proven ourselves to you, you would take the effort to write feedback regarding your experience with us with the same passion.

If we do excellent work for you, we hope you will leave us a nice review!

RESOURCES

■ Tree ordinance

To undertake any project involving the removal of trees in most countries and cities surrounding Atlanta, you must first obtain permission. It contains trees that are alive, dying, or dead. It is the homeowner's responsibility to do so. Garnetta Tree can answer any questions you have about the application, but they do not tackle this aspect. A list of local regulations and contacts is provided below. It is shared as a courtesy and is not guaranteed to be correct. Please check with your local authorities.

■ Customer Promise

Thank you for allowing Garnetta Tree company to provide you with a quote for your tree service requirements. We promise a competitive and fair bid. When comparing our proposal to others, make certain that the organizations you compare have:

Insurance: Ensure that all businesses are fully insured. Insurance should cover not only general liability but also losses to one's house and belongings.

Insurance for Workers' Compensation: Georgia law requires all businesses to be registered with the state and to have a policy. If you hire a non-compliant company, you may be held liable for any damage that occurs.

■ Free Wood chips

Garnetta tree company routinely removes waste from every project during the clean-up procedure. We advise homeowners to use the mulching output for their landscaping rather than dumping it in landfills. We would desire to be a more environmentally responsible business within our industry and would love to find locations where it would be more profitable. Chipped tree debris is an excellent landscaping tool that can aid trees and shrubs when the weather warms and becomes dryer. Mulch aids in the retention of moisture in landscaping. As it decomposes, it replenishes the soil with essential nutrients. So, ask us to leave the chips; you'll love the appearance, and your landscaping will appreciate it as well.

Stump Grinding Information

The process of eliminating the stump from your yard is known as "stump grinding". This can be somewhat messy and you should understand what it is and know what to expect. We will drive a pick-up truck towing a skid steer and stump grinder into your yard. The machine will be backed up to the stump and the machine will pulverize the stump into mulch and dirt.

The spot where the stump was will be a hole and you must fill the hole with the mulch and dirt. We will grind the stump up to 10" deep to get all of it. If you want us to clean up the stump grinding remains (mulch), we will be glad to do that at an additional charge to you. This additional charge is usually about the same price as the stump grinding itself and sometimes more. Most customers normally use the stump grinding remains as mulch and move it to their desired location themselves. Below is a picture of our stump grinding process before and after, without the removal of the mulch.

Consumer Alert!

Care for your trees needs to be done by skilled, trained and insured professionals, both for the health and beauty of your trees and for your safety. Alarming numbers of workers and homeowners are injured or killed doing tree work every year. For your safety, do not perform your own tree work. For your financial protection, hire a company that is professional. If the company doesn't have both general liability and worker's compensation insurance or it is not a licensed legal company-you, the homeowner -could be held responsible as a contractor.

Avoid being takenAdvertise topping and low prices in yellow pages by fly-by-night operators and unprofessional companies. Choose a company with the proper insurance and a good customer satisfaction history.

What can I do to protect myself and my home?

VERIFY INSURANCE COVERAGE

An insurance certificate dated for a full year of coverage can be easily obtained with one down payment. Don't settle for a piece of paper. Call the insurance company directly to verify CURRENT coverage. Liability and especially worker's compensation insurance in the tree care industry is very expensive. It is also required by law. This is the dividing line between a professional tree service company and a "fly-by-night" operator. An uninsured tree care company often provides the lowest estimate, but at what cost to you as the homeowner?

CALL REFERENCES

Ask for a list of references from local satisfied customers and BE SURE TO CALL.

ASK ABOUT THE COMPANY'S SAFETY POLICIES

Tree trimming and removal involves the use of chainsaws and chippers and is extremely dangerous. Ask about the use of safety equipment (hardhats, chaps, safety glasses, etc.). What are their policies about drugs in the workplace? Ask for and verify professional affiliations the company might have, such as membership in the International Society of Arboriculture (ISA) (toll free 1-888-472-8733) or the Better Business Bureau.

LOOK FOR THE FOLLOWING WARNING SIGNS- Disreputable companies tend to:

- ✓ Solicit work door-to-door.
- ✓ Sell jobs without producing a written estimate or work order.
- ✓ Offer prices good only for immediate service.
- ✓ Demand payment in advance.
- ✓ Advertise topping and low prices in yellow pages.
